

Jorge Luis Rojas Arcos

22 years old

Phone: 442 331 1745

E-mail: jorge.rojas.arcos@gmail.com

MY WORK DONE AND EXTRACURRICULAR ACTIVITIES

Training course: Basic web development

Development with HTML, CSS, JavaScript (2016)

Training course: Android mobile apps

40 hours duration (2017)

Participation: SG Software Guru's Hackathon

Spanish – Nahuatl translator with Adobe PhoneGap (2017)

Training course: Back-End Development

Development with PHP (2017)

Training course: Software Design Patterns

40 hours duration (2018)

Participation: "Troyano-UAQ" Hackathon

Monitoring system for calculate water consumption per family with PHP and Adobe PhoneGap (2018)

LeCuisine's web administration system

Development and maintenance Back-end code and Database (MySQL) with PHP language and MVC architecture (2018-Today)

Participation: "Troyano-UAQ" Hackathon

School control platform for teachers and parents (2019)

Web delopment instructor (Back-End)

Back-End development with PHP (2019)

Web delopment instructor (Back-End)

MVC architecture with PHP (2019)

CALMX Web Platform

Project development with REST API architecture with Node JS and database modeling with MySQL (2019)

STUDIES

Software engineering (2016 - 2020)

Graduated

Computer Science Faculty

Autonomous University of Querétaro

Computer Engineering (2019-2020)

Estudiante de 4to año

Computer Science Faculty

University of Santiago de Compostela

LANGUAGES

- English: Intermediate (B1)

TECHNOLOGIES

- Javascript (NodeJS)
- Flutter (Dart)
- PHP
- Java
- Python
- MySQL
- MongoDB
- HTML + CSS

STRENGTHS

- Teamwork
- Communication
- Organization
- Self-taught

Mobile app development and publishing

"Apendicograma" mobile app made with Flutter, published in App Store and Play Store **(2019)**

"Apendicograma" administration web platform (Back-End)

Back-End (Node JS) development with API REST architecture and database modeling with MySQL **(2019)**

Course: Informatic security

Theoretical-practical course at University of Santiago de Compostela **(2019 - 2020)**

Course: Software Quality

Theoretical-practical course at University of Santiago de Compostela **(2019 - 2020)**

Course: Service Oriented Architectures

Theoretical-practical course at University of Santiago de Compostela **(2019 - 2020)**

Investigation project with virtual assistants

Implementation of study tool for UAQ entrance test with Amazon Alexa and Alexa Hosted Skills **(2020)**

ROLI's business website development

Active participation in the development of an e-commerce platform, where I worked as Front-End, Back-End and in databases (mainly using NodeJS and MongoDB) **(2020)**.
